

# ENVIRONMENT

## KS3 Homework Menu: Summer 2 2017

Students should complete at least 6 activities from the choices below and return them their English teacher by 14<sup>th</sup> July 2017

Knowledge and understanding	Apply	Question, compare and analyse	Create	Evaluate
List 10 household items that can be recycled	Record using a tally chart the number of different wildlife /birds that visit your garden over a week	Collect information on what you recycle at home and make a graph/chart to display it	Design a garden	Evaluate the effect of deforestation on the climate and wildlife in the Amazon Rainforest
Find 5 recycling symbols and write what they mean	Pick a country and research what foods are produced there and why	Compare the pros and cons of using nuclear energy	Design a poster to encourage people to save energy	Write a speech evaluating whether global warming is taking place, in your opinion, and support this with evidence
Make a list of 10 endangered animal and how many are left in the wild	Choose 1 endangered animal and describe what steps are being taken to protect that animal	Compare the effects of doing a work out in different environment e.g. different altitudes	Create a bug hotel and take a picture	Evaluate the effects of the Chernobyl Disaster (1986) on the environment
Find five different renewable energy sources and describe how they work	Design a perfect gaming or relaxing environment	Compare two different environments (e.g. rainforest, desert, artic) in terms of types of vegetation and climate	Design an environmentally friendly car	Pick a food and work out its carbon footprint
Choose an animal and show, at least, 3 ways in which it has adapted to its environment	Make a model obstacle course out of recyclable materials	Find a piece of music which would contribute to a relaxed environment and explain why you have made your choice	Create a new logo for an environmental charity of your choice	Evaluate your learning environment and how it could be made better
