

KS3 Homework Menu: Spring 1 2019

Students should complete at least 6 activities from the choices below and return them to their Mentor by Wednesday 13th February, 2019.

Knowledge and understanding	Apply	Question, compare and analyse	Create	Evaluate
Research a job you would be interested in doing after school and create a PowerPoint to show information about the job.	Create your ideal job and present your ideas.	Interview a family member about their job and present the skills they need to do their job.	Create a timetable to show what you think happens in an average day at work.	Create a pie chart for to show how popular different careers are.
Create a job advert using ICT software of your choice.	Write 10 good interview questions.	What are the effects on the body of completing shift work? Present your findings.	Design a new uniform for an existing company.	Evaluate the pros and cons of being a Doctor.
Research what jobs use technology and present your findings.	Choose a job and see how much you would earn in a year and what your monthly take home pay would be.	Compare the number of people who go into different careers. Present your findings.	Create a diary entry for someone in a career of your choice.	List 10 jobs you need to be physically fit to do.
What jobs do you think use science and why?	Find out what science research projects are being completed at your local university.	Compare the life in two different jobs.	Write a job description for a career of your choice.	Evaluate one song that discusses a job.
How has technology changed the way people work?	Write a song about a job.	Compare how the working conditions have changed from now to 100 years ago.	Create a poster for a job advert to join the army.	Debate whether people paid the right amount of money for different sporting activities.
