

Science

Theme: Waves

Summer 2 Week 3

Class 6

Activity One

Work through PowerPoint for Types of Waves completing activities as you work through it.

Complete tasks in the booklet as you work through the PowerPoint.

Activity Two

Research what echolocation is and what animals use it to catch their prey.
Draw the animal and describe how they use echolocation.

Use the following web link to help you:
<https://www.discoverwildlife.com/animal-facts/mammals/what-is-echolocation/>

Activity Three

Describe why a dog can hear a dog whistle but we, as humans, cannot.

Use the following link to help you:

<https://morgridge.org/blue-sky/why-can-dogs-hear-a-dog-whistle-but-people-cant/>

Activity Four

Produce an informative leaflet to woman who are going for their first baby scan to reassure them of the process and inform them how it works.

Use the following web link to help you:
