

Science

Theme: David Attenborough

Summer 2 Week 7

Class 4

Activity One:

This half term, we have explored plants and the natural world. David Attenborough is a protector of the Natural World.

Read through the 'Attenborough's Life Fact Cards' to yourself or someone else. Write down three reasons why we might learn about him as an important figure in Science.

Challenge: David Attenborough is a great role model. Write down four reasons why he is a good role model.

Activity Two:

In Science, you will sometimes be asked to read information and interpret it. This includes written texts.

Complete the 'Attenborough's Life' worksheet. You will need the Fact Cards to help you.

Challenge: Design a leaflet or poster that educates people of your age about David Attenborough. Include the most important facts or useful information.

Activity Three:

This half term, you have looked at wildlife such as butterflies and bees. There are other animals that live and rely on the natural world.

Complete the 'Wildlife Documentary Activity'- pages 1 and 2.

Challenge: For more challenging task, complete the script for your own wildlife documentary on pages 3-6.
